

PUBLIC SERVICE BOARD  
**NOTICE OF PUBLIC HEARING**  
**RE LYNDONVILLE ELECTRIC DEPARTMENT'S**  
**PROPOSED RATE DESIGN CHANGES**

You are hereby notified that a Hearing Officer of the Public Service Board, Jay Dudley, Utilities Analyst, will conduct a **PUBLIC HEARING** on **Thursday, November 8, 2012, commencing at 7:00 P.M.**, for the purpose of allowing the public an opportunity to obtain information and/or comment on the Village of Lyndonville Electric Department's ("LED") proposed rate design changes to take effect on October 1, 2012 (Docket No. 7915).

On August 17, 2012, LED filed proposed tariffs and supporting documents seeking proposed rate design changes based on a Class Cost of Service and Rate Design Study that evaluates the relative cost responsibility for each customer class and sets rates accordingly. The proposed revised rates are revenue neutral with respect to LED's overall revenue. However, the effect on individual rate classes vary. For Residential A, the rates increase by 6.5%, and for Residential Load Management, they increase by 16%. Other classes are proposed to decrease.

**Hearing location:** Gymnasium at the Village of Lyndonville Municipal Building, located at 119 Park Avenue in Lyndonville, Vermont.

The above hearing location is handicapped accessible. Please contact the Public Service Board at 802-828-2358 by November 6, 2012, if you require accommodation.
